Car wash mat

To install the mat you will need:

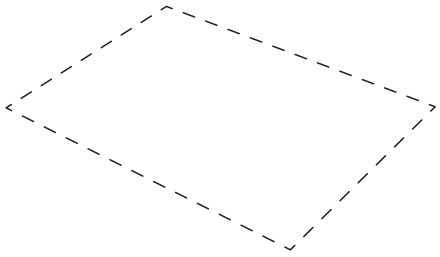

• Electric pump or car compressor

Required number of people:

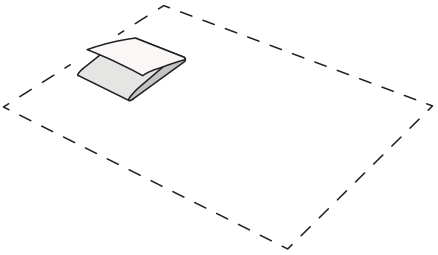

• 1 - 2 people

1

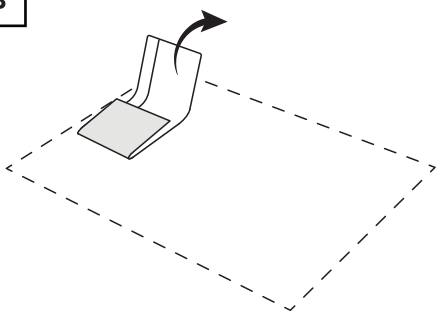

Remove any objects with sharp edges, e.g. glass, wire, stones, etc.

2

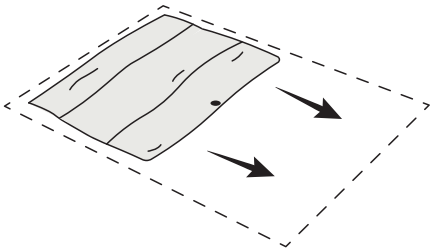

Place the folded mat in the chosen location.

3

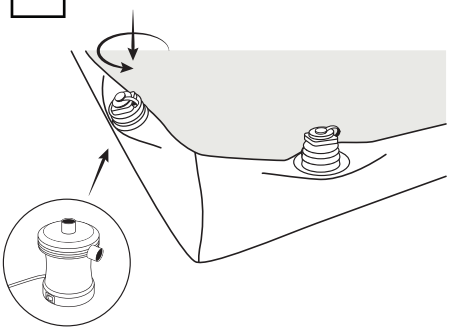

Unroll the mat sideways.

4

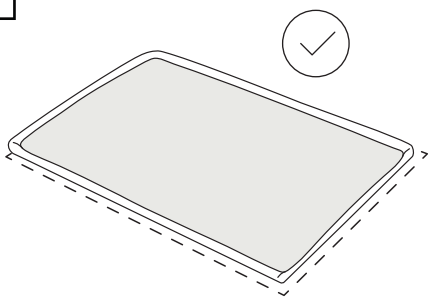

Roll out the mat towards the opposite side.

5

After unfolding the mat, unscrew the valve. Fill the walls with air using an electric pump, then close the valve.
Attention! The pressure must not exceed 0.1 bar.

6

The mat is ready for use.
